

THE Intel-Irris STARTER-KIT

QUICKLY VIEW LAST
SENSOR VALUE AND
SOIL CONDITION ON
OLED

SEN0308
capacitive sensor

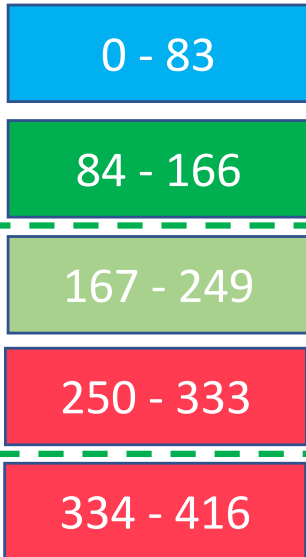

Watermark WM200
Water tension sensor

Packaged with 1 gateway and 1 capacitive or tensiometer sensor

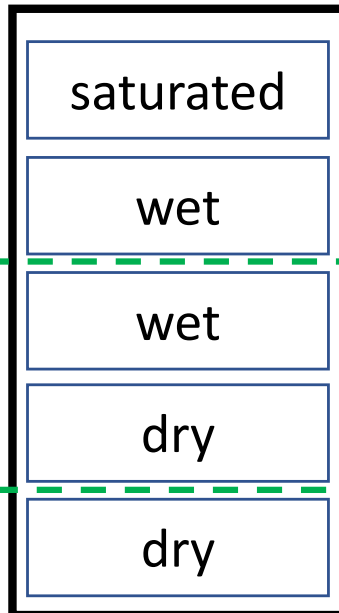

INTERPRETING MEASURED SENSOR VALUE AND SOIL CONDITION INDICATION ON OLED

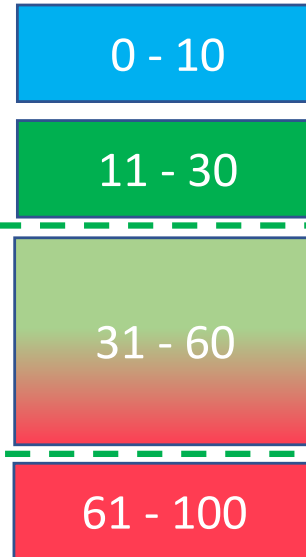

-1 :
no sensor

Usual
range for
irrigation

255 :
no sensor

Usual
range for
irrigation

> 416

very dry

> 100

The starter-kit is still under development, testing and adjustment. The proposed thresholds are indicative for the testing phase.
